

14. DOCTORAL SCHOOL OF PSYCHOLOGY

Faculty of Education and Psychology

Name of Discipline:	Psychology
Level of Education:	Doctoral (PhD) studies
Educational Goals:	Attainment of an academic degree, furthering the development of scientific research competencies and skills and higher education experience
Timeframe of Education:	8 semesters
Form of Education:	According to full-time education
Finances:	Hungarian state scholarship, self-funded
Entry Requirements:	Master's degree of at least "good" (above 3.51) grade (for foreign degrees, the original copy and certified translation is to be submitted), one state-recognised, complex-type B2 level language exam, fulfilling the entrance examination requirements.
Language Requirements:	One state-recognised, complex-type B2 level language exam
End of Programme:	Pre-degree certificate (Absolutorium)
Credits Needed for the Attainment of Absolutorium:	240 credits
Modes/Modules of Credit Attainment:	No. of credits to be attained by course completion: 84 credits; No. of credits to be attained by completing the comprehensive examination: 12 credits; No. of credits to be attained by directed research work: 112 credits; No. of credits to be attained by teaching activities: 44 credits.

TITLES OF THE PROGRAMMES OF THE DOCTORAL SCHOOL OF PSYCHOLOGY:

- Doctoral School of Psychology/Developmental and Clinical Psychology Programme
- Doctoral School of Psychology/Clinical Psychology and Addictology Programme
- Doctoral School of Psychology/Cognitive Psychology Programme
- Doctoral School of Psychology/Behavioural Psychology Programme
- Doctoral School of Psychology/Sports and Health Psychophysiology Programme
- Doctoral School of Psychology/Personality and Health Psychology Programme
- Doctoral School of Psychology/Socialization and Social Processes Programme

MODULES OF THE DOCTORAL SCHOOL:

- I. Developmental and Clinical Psychology Programme
 - Developmental and Clinical Child Psychology Module
- II. Clinical Psychology and Addictology Programme
 - Clinical Psychology Module
 - Addiction Science Module
- III. Cognitive Psychology Programme
 - Cognitive Processes: Psychology and Neuroscience Module
 - Cognitive Development Module
- IV. Behavioural Psychology Programme
 - Behaviour Regulation Module
- V. Sports and Health Psychophysiology Programme
 - Sports and Health Psychophysiology Module

VI. Personality and Health Psychology Programme

- Positive Psychology Module
- Quantitative Research Methods Module
- Qualitative Psychological Research Methodology Module

VII. Socialization and Social Processes Programme

- Basic and Applied Social Psychology Module
- Socialization and Education Module
- Decision Making and Organizational Psychology Module
- Intercultural and Intergroup Process Module
- Environmental Psychology Module
- Intergroup and Political Psychology Module

Description of the Programmes of the Doctoral School of Psychology

Education in the Doctoral School is organised according to a modular system. All students must complete at least two full modules in the first four semesters of their education (educational and research phase). The modules to be completed are outlined in the admissions resolution. Modules/courses of the Doctoral Schools of Psychology or Education may be completed on an elective basis.

The completion of all course requirements and the DPSZ16-IK-1 are strong prerequisites of the comprehensive examination.

I. Developmental and Clinical Child Psychology Module

To fulfil the requirements of the module the student has to obtain four courses. One course each is to be completed in one or more course groups in the module.

DPSZ16-DCC-101:1 Research Methods in Developmental and Clinical Child Psychology: Methodological Issues of Developmental Research

7 credits, practice

DPSY16-DCC-101:2 Methodology in Developmental and Clinical Child Psychology: Methods in Assessment of Attachment

7 credits, practice

DPSY16-DCC-101:3 Research Methods in Developmental and Clinical Child Psychology: Research Methods of Child and Adolescent Psychiatry

7 credits, practice

DPSY16-DCC-102 Theoretical Models of Development

7 credits, practice

DPSY16-DCC-103 Social Cognition in Infancy and Early Childhood – Typical and Atypical Development

7 credits, practice

DPSY16-DCC-104 Infant and Childhood Attachment, Attachment Disorders

7 credits, practice

DPSY16-DCC-105 Development of the Self: From Perceptual Self to Representational Self

7 credits, practice

DPSY16-DCC-106 Classification Models of Mental Disorders, with Special Focus on Childhood

7 credits, practice

II. Clinical Psychology Module

To fulfil the requirements of the module the student has to obtain four courses. One course of course group 101, two courses of course group 102 and the course group 103 are to be completed.

DPSY16-CLI-101:1 Modern Trends of Clinical Psychology Research: Psychodynamic and Cognitive Approaches to Psychopathological Phenomena

7 credits, practice

DPSY16-CLI-101:2 Modern Trends of Clinical Psychology Research: Psychodynamic Approaches to Personality Disorders

7 credits, practice

DPSY16-CLI-101:3 Modern Trends of Clinical Psychology Research: Psychobiography and Life History Analysis

7 credits, practice

DPSY16-CLI-101:4 Modern Trends of Clinical Psychology Research: Risk and Protective Factors for Suicide with Special Focus on Young People

7 credits, practice

DPSY16-CLI-101:5 Modern Trends of Clinical Psychology Research: Psychological Models of Addiction

7 credits, practice

DPSY16-CLI-101:6 Modern Trends of Clinical Psychology Research: Neuropsychological Approaches of Mental Disorders

7 credits, practice

DPSY16-CLI-102:1 Research Methods in Clinical Psychology: Clinical and Neuropsychological Methods

7 credits, practice

DPSY16-CLI-102:2 Research Methods in Clinical Psychology: Qualitative Psychology Research Design and the Publication of Results

7 credits, practice

DPSY16-CLI-102:3 Research Methods in Clinical Psychology: Issues of Clinical Neuroscience

7 credits, practice

DPSY16-CLI-102:4 Research Methods in Clinical Psychology: Current Research Issues in Clinical Psychology

7 credits, practice

DPSY16-CLI-102:5 Research Methods in Clinical Psychology: Systematic Literature Review and Meta-Analysis

7 credits, practice

DPSY16-CLI-103 Scientific Writing

7 credits, practice

III. Addiction Science Module

To fulfil the requirements of the module the student has to obtain four courses. One course each is to be completed in one or more course groups in the module.

DPSY16-ADD-101:1 Theoretical Basis of Addiction Psychology: Models of Addiction Psychology

7 credits, practice

DPSY16-ADD-101:2 Theoretical Basis of Addiction Psychology: Addictions from the Narrative Psychology Perspective

7 credits, practice

DPSY16-ADD-101:3 Theoretical Basis of Addiction Psychology: Emotion Regulation in Chemical and Behavioral Addictions

7 credits, practice

DPSY16-ADD-101:4 Theoretical Basis of Addiction Psychology: The Social Cognitive and Self-Regulation Models of Addictions

7 credits, practice

DPSY16-ADD-101:5 Theoretical Basis of Addiction Psychology: Evaluation of Interventions and Intervention Systems Targeting Treatment of Addiction Problems

7 credits, practice

DPSY16-ADD-101:6 Theoretical Basis of Addiction Psychology: Behavioral Addictions

7 credits, practice

DPSY16-ADD-101:7 Theoretical Basis of Addiction Psychology: Trauma and Addictions

7 credits, practice

DPSY16-ADD-102 Current Addiction Research

7 credits, practice

DPSY16-ADD-103:1 Quantitative and Qualitative Methods in Addiction Research: Qualitative Drug Research

7 credits, practice

DPSY16-ADD-103:2 Quantitative and Qualitative Methods in Addiction Research: Individual Behavior in Social and Environmental Context

7 credits, practice

DPSY16-ADD-103:3 Quantitative and Qualitative Methods in Addiction Research: Population Studies on Addictions and in Health Research

7 credits, practice

DPSY16-ADDI-103:4 Quantitative and Qualitative Methods in Addiction Research: Systematic Literature Review and Meta-Analysis

7 credits, practice

DPSY16-ADD-104 Scientific Writing

7 credits, practice

IV. Cognitive Processes: Psychology and Neuroscience Module

To fulfil the requirements of the module the student has to obtain four courses. One course each is to be completed in one or more course groups in the module.

DPSY16-CPN-101 Methods of Cognitive Psychology and Cognitive Neuroscience, Scientific Publications

7 credits, practice

DPSY16-CPN-102 Perception and Attention

7 credits, practice

DPSY16-CPN-103:1 The System of Representations: Human Memory

7 credits, practice

DPSY16-CPN-103:2 The System of Representations: Verbal Processes

7 credits, practice

DPSY16-CPN-104:1 Thinking and Control Processes: Specific Topics on Thinking

7 credits, practice

DPSY16-CPN-104:2 Thinking and Control Processes: Control Processes

7 credits, practice

DPSY16-CPN-104:3 Thinking and Control Processes: Cognitive Processes in Adulthood

7 credits, practice

V. Cognitive Development Module

The completion of four courses in this module is required for its attainment.

DPSY16-CDM-101 Research Methods in Cognitive Neuroscience and Cognitive Psychology, Scientific Publication and Developmental Research

7 credits, practice

DPSY16-CDM-102 Development of Cognitive Functions

7 credits, practice

DPSY16-CDM-103 Social Cognition and its Relation to Other Cognitive Functions

7 credits, practice

DPSY16-CDM-104 Biological Aspects of Developmental Processes

7 credits, practice

VI. Behaviour Regulation Module

To fulfil the requirements of the module the student has to obtain four courses. One course each is to be completed in one or more course groups in the module.

DPSY16-BRM-101:1 Genetic, Perinatal and Biological Factors in Behaviour Regulation: Behaviour Genetics

7 credits, practice

DPSY16-BRM-101:2 Genetic, Perinatal and Biological Factors in Behaviour Regulation: Perinatal Sciences

7 credits, practice

DPSY16-BRM-101:3 Genetic, Perinatal and Biological Factors in Behaviour Regulation: Biological Basis of Regulatory Processes in Behaviour

7 credits, practice

DPSY16-BRM-102:1 Consciousness, Altered States of Consciousness, and Behaviour Regulation: Conscious, Subconscious, Unconscious

7 credits, practice

DPSY16-BRM-102:2 Consciousness, Altered States of Consciousness, and Behaviour Regulation: Altered States of Consciousness

7 credits, practice

DPSY16-BRM-102:3 Consciousness, Altered States of Consciousness, and Behaviour Regulation: Hypnosis

7 credits, practice

DPSY16-BRM-103:1 Affective Effects in the Regulation of Behaviour: Affective Sciences

7 credits, practice

DPSY16-BRM-103:2 Affective Effects in the Regulation of Behaviour: Suggestive Effects

7 credits, practice

DPSY16-BRM-104:1 Methodology of Behavioural Research: a Systems Approach to the Empirical Study of Behaviour Regulation, Theory and Methodology

7 credits, practice

DPSY16-BRM-104:2 Methodology of Behavioural Research: The Re-search of Consciousness and Non Conscious Processes

7 credits, practice

DPSY16-BRM-104:3 Methodology of Behavioural Research: Research Methodology, Analysis of Interactions

7 credits, practice

DPSY16-BRM-104:4 Methodology of Behavioural Research: Field Studies in Interactional Framework

7 credits, practice

VII. Sports and Health Psychophysiology Module

To fulfil the requirements of the module the student has to obtain four courses. One course each is to be completed from the two course groups.

DPSY16-SHP-101:1 Life-Style, Recreation, Exercise: Psychological Effects of Physical Activity

7 credits, practice

DPSY16-SHP-101:2 Life-Style, Recreation, Exercise: Exercise Addiction and Other Behavioral Dysfunctions in Physical Activity

7 credits, practice

DPSY16-SHP-101:3 Life-Style, Recreation, Exercise: Life-Style and Recreation

7 credits, practice

DPSY16-SHP-101:4 Life-Style, Recreation, Exercise: Life-Style, Recreation and Health

7 credits, practice

DPSY16-SHP-101:5 Life-Style, Recreation, Exercise: Yoga and Health

7 credits, practice

DPSY16-SHP-102:1 Health Psychophysiology: Behavioural Physiology

7 credits, practice

DPSY16-SHP-102:2 Health Psychophysiology: Non-Specific Health Problems and Health Worries

7 credits, practice

DPSY16-SHP-102:3 Health Psychophysiology: Body Awareness

7 credits, practice

DPSY16-SHP-102:4 Health Psychophysiology: Placebo és Nocebo

7 credits, practice

DPSY16-SHP-102:5 Health Psychophysiology: Sport Psychophysiology Research Methodology Practice

7 credits, practice

VIII. Positive Psychology Module

To fulfil the requirements of the module the student has to complete four courses.

DPSY16-POS-101 Positive Psychology as the Science of Psychological Well-Being and Human Strengths

7 credits, practice

DPSY16-POS-102 Positive Psychology in Clinical Health Psychology

7 credits, practice

DPSY16-POS-103 Theories and Measuring Alternatives of Emotional Intelligence, Creativity, Wisdom and Mindfulness

7 credits, practice

DPSY16-POS-104 Personality Antecedents of Psychological Immunity. The Positive Psychological Model of Coping

7 credits, practice

IX. Quantitative Research Methods Module

To fulfil the requirements of the module the student has to complete four courses.

DPSY16-QNR-101 Person Oriented Multivariate Statistical Methods

7 credits, practice

DPSY16-QNR-102 Introduction to Practice of Structural Equation Modeling

7 credits, practice

DPSY16-QNR-103 Methods in Social Psychology: Experiments and Cross-Cultural Studies

7 credits, practice

DPSY16-QNR-104 Planning Empirical Research – Propaedeutics

7 credits, practice

DPSY16-QNR-105 Preparing and Writing Research Papers and Critical Reading

7 credits, practice

DPSY16-QNR-106 Specific Quantitative Research Method from Other Modules

7 credits, practice

DPSY16-QNR-107 Multivariate Statistics Teaching Practice

7 credits, practice

X. Qualitative Psychological Research Methodology Module

To fulfil the requirements of the module the student has to obtain three courses.

DPSY16-QLR-101 Main Approaches to Qualitative Methods (Epistemology and Methodology)

7 credits, practice

DPSY16-QLR-102 Qualitative Psychological Research Design and The Publication

7 credits, practice

DPSY16-QLR-103 Methodology of Psychological Content Analysis

7 credits, practice

DPSY16-QLR-104 Narrative Psychological Methods

7 credits, practice

DPSY16-QLR-105 Applying Qualitative Methods in Social Psychology and Developmental Social Psychology

7 credits, practice

XI. Basic and Applied Social Psychology Module

To fulfil the requirements of the module the student has to obtain four courses. For the attainment of the module, only one course of may be completed from each course groups. Further courses of the course group may be completed on an elective basis.

DPSY16-SOC-101:1 The Past of Social Psychology and Trends: The (Critical) History of Social Psychology

7 credits, practice

DPSY16-SOC-101:2 The Past of Social Psychology and Trends: Research Paradigms in Social Psychology and Related Disciplines

7 credits, practice

DPSY16-SOC-102 The Dynamics of Social and Societal Relationships: Competition and Cooperation

7 credits, practice

DPSY16-SOC-103 The Motivated Society: The Psychology of Social Relationships

7 credits, practice

DPSY16-SOC-204 Social Interventions

7 credits, practice

DPSY16-SOC-105:1 Applied Social Psychology: Evaluation of Public Policies and Programs – Science, Higher Education, Media

7 credits, practice

DPSY16-SOC-105:2 Applied Social Psychology: Evaluation of Public Policies and Programmes

7 credits, practice

XII. Socialization and Education Module

To fulfil the requirements of the module the student has to obtain four courses. For the attainment of the module, only one course of may be completed from each course groups. Further courses of the course group may be completed on an elective basis.

DPSY16-SED-101 Social Relationship and Social Psychology at School

7 credits, practice

DPSY16-SED-102:1 Research of Socialization and Child Development: Theoretical and Methodological Approach to Socialization

7 credits, practice

DPSY16-SED-102:2 Research of Socialization and Child Development: Research in Childhood Development

7 credits, practice

DPSY16-SED-103 Teaching Psychology in Higher Education (Issues of Methodology)

7 credits, practice

DPSY16-SED-104:1 Psychological and Pedagogical Issues of School Learning: Motivation in School Learning

7 credits, practice

DPSY16-SED-104:2 Psychological and Pedagogical Issues of School Learning: Cognitive Processes and Learning Disabilities

7 credits, practice

DPSY16-SED-104:3 Psychological and Pedagogical Issues of School Learning: Cultural Aspects of Family and School Socialization and Education Processes

7 credits, practice

XIII. Decision Making and Organizational Psychology Module

To fulfil the requirements of the module the student has to obtain four courses.

DPSY16-DMO-101 Judgment and Decision Making

7 credits, practice

DPSY16-DMO-102 Risk Taking, Innovation and Entrepreneurship in Individuals and in Organizations

7 credits, practice

DPSY16-DMO-103 Organizational Psychology and Leadership

7 credits, practice

DPSY16-DMO-104:1 Wellbeing and Mental Health in Organizations

7 credits, practice

DPSY16-DMO-104:2 Social Relationships on the Workplace, the Development of Social Systems

7 credits, practice

DPSY16-DMO-105 Methodological Issues in Organizational Research: Experimental Investigation, Qualitative Methods, Field Studies and Case Studies

7 credits, practice

XIV. Intercultural and Intergroup Process Module

To fulfil the requirements of the module the student has to obtain four courses.

DPSY16-ICP-101 Culture, Social Behavior and Socialization

7 credits, practice

DPSY16-ICP-102 Social and Societal Identity and Stigma

7 credits, practice

DPSY16-ICP-103 Social Hierarchy and Prejudices

7 credits, practice

DPSY16-ICP-104 Interactions Between Cultures: Intercultural Communication and Acculturation

7 credits, practice

DPSY16-ICP-105 Gender. Gender Ideologies, Gender Discrimination, Gender and Career, Gender and Politics

7 credits, practice

DPSY16-ICP-106 Cross-Cultural Research Methods

7 credits, practice

XV. Environmental Psychology Module

To fulfil the requirements of the module the student has to obtain four courses.

DPSY16-ENV-101 Environmental Psychological Analysis of Built, Natural and Virtual Spaces

7 credits, practice

DPSY16-ENV-102 Environmental Orientation

7 credits, practice

DPSY16-ENV-103 Person-Environment Fit in a Life Span Approach

7 credits, practice

DPSY16-ENV-104 Contexts of Environment Usage

7 credits, practice

XVI. Intergroup and Political Psychology Module

To fulfil the requirements of the module the student has to obtain four courses. One course each is to be completed in one or more course groups in the module.

DPSY16-IGP-101:1 Intergroup Conflicts and Collective Action

7 credits, practice

DPSY16-IGP-101:2 Intergroup Emotions

7 credits, practice

DPSY16-IGP-102:1 The Social Psychology of System Transformation

7 credits, practice

DPSY16-IGP-102:2 The Psychology of False Beliefs

7 credits, practice

DPSY16-IGP-103 Motivated Social and Political Cognition

7 credits, practice

DPSY16-IGP-104 Communication and the Social Psychology of Social Media

7 credits, practice

Miscellaneous Compulsory Scientific, Research, and Teaching Requirements
--

DPSY16-X Complex exam

12 credits, examination course, exam

DPSY16-SR-1 Supervised research I.

24 credits

DPSY16-SR-2 Supervised research II.

88 credits

DPSY16-THE-1 Teaching in higher education

12 credits, practice

DPSY16-THE-2 Teaching in higher education

32 credits, practice
